

MOHAMMED HARSHIN.KK

PYTHON DJANGO FULL STACK DEVELOPER

ABOUT ME

A Python Django Full Stack Developer with several years of practical experience in designing, building, and delivering web applications and websites. I have a strong passion for developing scalable and trustworthy software solutions that go above and beyond for clients. Looking for a challenging position where I can put my knowledge and experience to work for the organization's success.

My area of expertise is using Python frameworks like Django to create dynamic, effective web applications. I can build interfaces that are both aesthetically pleasing and user-friendly. I am skilled at combining different components to give smooth functionality because I have a solid background in database management and Apache server for web deployment. I am committed to producing high-quality code and generating significant outcomes in every project.

Passionate Python Django developer with a commitment to continuous learning and staying abreast of web development trends. Experienced Full Stack developer thriving on challenges and contributing to project success. Specialized in building responsive, user-friendly web applications and websites that consistently exceed client expectations.

TECHNICAL SKILL

PYTHON WEB DEVELOPMENT

- Developed 4 web applications and 10+ Dynamic Websites using Python in Django framework.
- I recently completed the development of <https://travelzona.in/> a Travel Company Website. using Python, Django, JavaScript, HTML, CSS, AJAX and database as PostgreSQL . As the sole developer, I handled the entire process from start to finish, creating a dynamic and responsive website with features like multilanguage support. Notably, I added streamlined tour and hotel booking functionalities, emphasizing my ability to independently deliver a user-friendly and feature-rich product.

EXPERTISE

- HTML 5, CSS
- Bootstrap
- JavaScript, jQuery , Ajax
- Python, Django(Framework)
- PostgreSQL(Database)
- Git
- Apache server configuration
- REST API
- Digital Ocean Server
- Apache Server Deployment

SOFT SKILLS

- Self Learning
- Leadership
- Communication
- Multi Tasking
- Presentation

LANGUAGES

- Malayalam (Native Proficiency)
- English (Professional Proficiency)

EDUCATION

- University of Calicut 2018-21
I completed BSC COMPUTER SCIENCE from EMEA College of Arts and Science at Kondotty, Kerala, under CALICUT UNIVERSITY

FRAMEWORK

- Django framework

DATABASES

- PostgreSQL
- MySQL
- SQLite

VERSION CONTROL SYSTEM (VCS)

- Git Hub

HOSTING

- Digital Ocean using Apache
- PythonAnywhere
- Heroku

API INTEGRATION

- RESTful API Integration
- API Testing Tools: Postman
- Payment Gateway Integration (Stripe, Razorpay)
- Twilio Integration
- Tawk.to Integration
- Third-party API Integration (e.g., Gmail, Whatsapp)

User Authentications

- Django Registration Redux
- Django-allauth

EXPERIENCE

Web Developer

Gedexo Technologies LLP , Malappuram
May 2022 - Present

- Spearheading the development of dynamic web applications and websites using Python Django.
- Leading the implementation of responsive interfaces that enhance user experiences.
- Collaborating with cross-functional teams to deliver innovative solutions that meet client needs.
- Conducted code reviews and provided mentorship to junior developers, fostering a culture of continuous learning and improvement.

Projects

Rotanatata - CRM for Vehicle Company (Current Project)

- Developed a comprehensive CRM system for a vehicle company, managing leads, follow-ups, and the entire sales process until car delivery. (<https://rotanatata.geany.website/>)

Responsibilities:

- Led the end-to-end development, ensuring seamless functionality and user-friendly interfaces.
- Implemented user authentication and management for a user base of 8 individuals.
- Integrated stock management features to monitor and control the inventory of cars.
- Designed and implemented a Test Drive Request system, allowing customer advisors to request test drives and respected Team Lead's approval.
- Incorporated approval workflows involving respective departments, ensuring systematic test drive approvals.
- Orchestrated approval processes from relevant departments before vehicle delivery, streamlining operations.

Wowdget - Ecommerce

- Wowdget is a dynamic and user-friendly e-commerce platform designed to provide a seamless shopping experience. The website allows users to explore a wide range of products, place orders, and conveniently complete transactions through the integrated Razorpay payment gateway.

Safeline - Website

- I undertook the responsibility of crafting Safeline's pioneering online presence for our esteemed Omani client. Specializing in electrical, HVAC, and fire systems, Safeline's comprehensive range of services and products were meticulously showcased on a dynamic and responsive website. My individual effort ensured the creation of a sophisticated and informative platform tailored for both existing and potential stakeholders. (<https://www.safe-line.co/>)

Web Developer Intern

Baabtra.com, Hilite Business Park ,Kozhikode

Nov 2021 - Feb 2022

- I got the chance to work on a variety of projects during my internship, helping to create a compact e-commerce site and a tuition booking system. I refined my abilities in web application development, exploring the complexities of these dynamic systems, with the help of expert instructors.
